

Disposable Microforceps Ultra peel

(25 gauge / 0.5 mm)

Article No: 2286.CD305

“The rounded tip design allows for soft, gentle grasping of a membrane. The ergonomic pen-type handle enables the movement of my fingertip to be well synchronized with the instrument tip, providing secure control.”

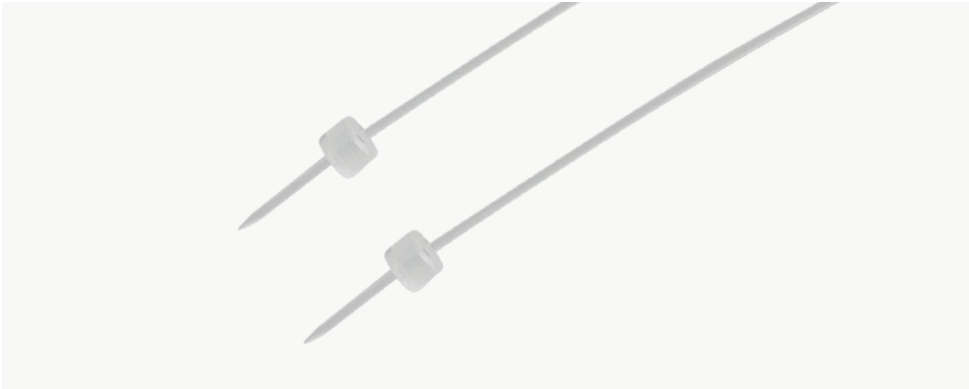

Kohsaku Numa
MD, PhD, Japan

Disposable Eckardt TwinLight Chandelier

(27 gauge / 0.4 mm)

Article No: 3269.MBD27

“Compared to a single chandelier, TwinLight Chandelier significantly minimizes shadow zones and provides better visualization. The stiffness of the fiber is just right, allowing for an easy stress-free insertion through a trocar cannula or a trans-scleral insertion. It is also very easy to control due to its right stiffness.”
